

Tenuta di Murlo

Villa San Savino

Villa San Savino

This four-bedroom, 14th century property is named after Saint Sabinus, Bishop of Spoleto, to whom the little church on the Estate was once dedicated. This used to be one of the most important churches of Murlo where the farmers would congregate for Sunday Holy Mass until the late 1970's. One of the most ancient properties on the estate, its terracotta tile floors and original kitchen, along with its imposing old stone walls, give a sense of the building's history as the most important social meeting point of the Estate.
